Define Problem Statements (Customer Problem Statement Template):

Problem Statement	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A person applying for a personal loan	Get my loan approved quickly	The loan approval process takes too long	Banks require manual verification and many documents	Frustrated and worried
PS-2	A bank loan officer	Evaluate loan applications accurately	It is difficult to analyze every applicant manually	There are many applications and chances of human error	Stressed and overloaded

PS-3	A customer with a low or limited credit history	Know whether I am eligible for a loan	I don't know the reasons for rejection	There is no clear eligibility prediction or guidance	Confused and disappointed
------	---	---------------------------------------	--	--	---------------------------

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.
