

No. of Functional Features Included in the Solution

Date	1 July 2026
Team ID	SWTID-2026-9068
Project Name	Smart Lender
Maximum Marks	5 Marks

Functional Features Overview:

This document lists all the functional features implemented in the **Smart Lender** project. Each feature contributes to the loan eligibility prediction system by providing accurate analysis, user-friendly interaction, and efficient processing.

S.No	Feature Name	Feature Description	Module / Component	Status	Marks Contribution
1	Loan Eligibility Prediction	Predicts whether a customer is eligible for a loan using a machine learning model.	ML Model + Backend	Done	High
2	Customer Data Input	Accepts applicant details such as income, employment, loan amount, and credit history.	Frontend UI	Done	High
3	Data Validation	Validates user inputs and prevents invalid or empty values.	FastAPI Backend	Done	Medium
4	Prediction Result Display	Displays loan approval or rejection along with the prediction result.	Frontend UI	Done	High
5	REST API Integration	Processes prediction requests through FastAPI REST APIs.	FastAPI Backend	Done	High
6	Swagger API Documentation	Provides interactive API documentation for testing endpoints.	FastAPI	Done	Medium
7	Responsive User Interface	Offers a simple and responsive Streamlit interface for users.	Streamlit Frontend	Done	Medium

8	Unit Testing	Verifies the correctness of prediction logic and API functionality using test cases.	Testing Module	Done	Medium
---	--------------	--	----------------	------	--------

Feature Summary:

Metric	Count / Value
Total Features Planned	8
Total Features Implemented	8
Core / Must-Have Features	5
Additional / Nice-to-Have Features	3
Features Tested & Verified	8

Feature Category Breakdown:

S.No	Category	Features in Category	Example Features
1	User Interface (UI)	3	Customer Data Input, Prediction Result Display, Responsive UI
2	Backend / Logic	2	Loan Eligibility Prediction, Data Validation
3	Database / Storage	0	Not Used (or write SQLite/MySQL if your project uses a database)
4	API / Integration	2	FastAPI REST API, Swagger API Documentation
5	Security / Authentication	1	Input Validation and Secure API Configuration
