

Communication

Date	2 July 2026
Team ID	SWTID-2026-9068
Project Name	Smart Lender
Maximum Marks	1 Mark

Communication Plan:

Effective communication played a key role in the successful development of the **Smart Lender** project. The team regularly communicated to discuss project requirements, machine learning model development, dataset preprocessing, testing, documentation, and presentation preparation.

S.No	Communication Type	Frequency	Channel / Tool	Participants	Purpose
1	Team Standup	Daily	WhatsApp / Google Meet	Team Members	Discuss daily tasks, dataset preprocessing, model development, and UI progress
2	Progress Update	Weekly	Google Meet / WhatsApp	Team Members	Review completed modules such as data preprocessing, model training, prediction API, and frontend
3	Issue / Bug Discussion	As Needed	WhatsApp / GitHub	Team Members	Resolve coding issues, API integration problems, and prediction errors
4	Stakeholder Review	Bi-Weekly	Google Meet	Team Members, Mentor/Faculty	Demonstrate project progress and receive feedback on the Smart Lender application
5	Final Demo Rehearsal	Once	Google Meet / InPerson	Team Members	Practice the final project presentation and loan prediction demonstration
6	Documentation Review	Once	Google Docs / WhatsApp	Team Members	Review project report, testing documents, architecture diagrams, and presentation slides

Communication Challenges & Resolutions:

S.No	Challenge Faced	Resolution / Action Taken
1	Missing values and inconsistent loan dataset	Performed data preprocessing, handled missing values using suitable techniques, and validated the cleaned dataset before model training.
2	Difficulty in achieving better prediction accuracy	Compared multiple machine learning algorithms and selected the Random Forest Classifier because it provided better accuracy and reliable predictions.
3	Feature selection and model tuning challenges	Performed feature analysis, adjusted model parameters, and evaluated performance using different metrics.
